SUMMARY

Full Stack Developer skilled in C#, ASP.NET Core MVC, and front-end technologies like ReactJS and AngularJS. Experienced in building responsive web applications and committed to continuous learning to deliver effective software solutions.

EDUCATION

National Institute of Technology   **Dec 2020 – Jun 2023**
Master of Computer Applications   *Surathkal, Karnataka*

Awadhesh Pratap Singh University   **Jul 2017 – Jun 2020**
Bachelor of Science in Science(Computer Science)   *Rewa, M.P.*

EXPERIENCE

Publicis Resources   **Apr 2024 – Present**
Junior Software Developer   *Gurgaon, Haryana*

- Developed and maintained high-performance web applications using ASP.NET Core and MVC frameworks, ensuring robust architecture and seamless user experiences.
- Collaborated with the support team to troubleshoot and resolve application issues,improving user experience and reducing downtime.
- Contributed to front-end development with Angular and AngularJS, crafting dynamic user interfaces that enhance engagement.
- Assisted in project planning and management, ensuring timely delivery of projects meeting all specified requirements.
- Implemented best practices for coding, testing, and deployment to deliver efficient and reliable web solutions.

Publicis Resources   **jul 2023 – Apr 2024**
Technology Intern   *Gurgaon, Haryana*

- Created responsive user interfaces using HTML, CSS, and JavaScript, converting design concepts into functional web pages.
- Developed maintainable and scalable UI components following best practices.
- Utilized Fetch API and AJAX for data retrieval, focusing on error handling and real-time feedback.
- Gained experience with AngularJS, Bootstrap, Tailwind, Material UI, and jQuery.

PROJECTS

Employee Management System | ASP.NET Core,HTML, CSS, Bootstrap, SQL Server
Streamlined tool for managing employee data, tracking attendance, payroll, and leaves.

- Developed back-end with ASP.NET Core MVC.
- Created responsive UI using Bootstrap.

Job Portal System | SQL Server, ReactJS, ASP.NET MVC, Bootstrap
Online platform for job seekers and employers with job search and recommendations.

- Employers can make Job Posts and check which user has applied for that Job.
- Implemented job matching functionalities.

CineChoice | AngularJS, Bootstrap, TMdb API
Movie recommendation system with personalized suggestions.

- Developed dynamic front-end using AngularJS.
- Integrated TMDb API for real-time movie data.
